

The Friendly Trap

The Friendly Trap is a high-quality, humane mouse trap designed to capture mice using secure-state lid technology. It is a matte-green, elongated, lightweight, rectangular container, that measures **6x1x1 inches**.

The open lid is designed to create an entrance for the mouse to enter. Once the mouse is more than 3 inches into the trap (where the container inclines), the weight of the mouse will cause the incline to drop, and the lid in which the mouse entered closes.

Benefits

- Child and pet friendly
- No glue
- No mess
- No poison
- Reusable
- Zero odor

Parts

The trap consists of a

1. lid,
2. base, and
3. incline.

No assembly required.

Note: Cannot be used on rats.

WARNING: CHOKING HAZARD. Keep away from children 3 and under.
